

During these times of franchise cancellations by the big three automakers, many dealers are looking for a new business opportunity. The Express Oil Change franchise allows you to remain connected to the industry you know, and generate significant cash flows from your current location.

We are in 10 states now, and have huge brand development opportunities available across the U.S.

Larry Puckett of Larry Puckett Chevrolet in Prattville, AL says that “what attracted me to develop an Express Oil Change franchise in addition to my dealership is the convenience it provides to the customer. Given that most households have two working adults, they need quick service, and with the 10 minute Express Oil Change, they don’t even have to get out of their car”.

I invite you to learn why Express Oil Change leads the quick oil change industry with 35% more transactions a day, and 43% higher total unit sales than the industry average.

- We focus on growing car counts by building trust with the customer, and operate with the highest ethical standards.
- We have a broad service offering that goes beyond quick oil change, that offers convenience for the customer and greatly enhances the top and bottom lines.
- We have a unique human resource strategy employing only full time staff, with the crew sharing in the weekly success of the business, which creates a more experienced, well trained and motivated work force, that delivers a better retail experience, customer retention and higher sales.
- We provide a proprietary state of the art POS customer tracking data base system, with user friendly back office reporting at the touch of a button.
- According to the Franchise Research Institute survey in 2008, 97% of Express Oil Change franchisees said that they would recommend the franchise to prospective candidates.

We have cracked the code on servicing a high volume of cars very profitably through premium service and without discounting. Give us a call to learn how we do it, and what it takes to become an Express Oil Change franchisee.

Please contact our Senior Vice President of Franchise Development, Don Larose, at 205-397-1178 or dlarose@expressoil.com, for more information.
